## How to use past continuous?

The past progressive tense, also called the past continuous tense, emphasises a continuing or incomplete action in the past. We can use this tense to express:

- an action that was in progress at a specific time in the past
- two actions that were taking place at the same time
- a past action that was interrupted by a second past action.

The signal words for the past progressive are: "while", "as long as", etc.

To conjugate the past progressive tense, we use the past tense form of the auxiliary verb "be" and the main verb in its **-ing** form.

## Choose the correct verb form.

**At midnight, I \_ a movie with my family.**

- was watching    am watching    watched

**While my sister \_ her nails, I was studying for my exam.**

## Mark the signal words of the past progressive

As the rain was pouring down, the girl was reading her favorite book. She was sitting by the window, while turning the pages and sipping hot chocolate. While she was reading, her cat was purring on her lap. As she was engrossed in the story, she didn't notice the time passing. When she looked up, it was already midnight and she was still reading. As she was getting sleepy, she closed the book and went to bed. While she was falling asleep, she dreamt about the characters in the book. As the night went by, she had a peaceful sleep.

## Write the past progressive form of the verb into the panels.

At nine o'clock last night, I \_\_\_\_\_ (to watch) a movie on Netflix.
